

SATAN in SCHOOL – Part One: HOUR of CODE

Thank you to Michael who brought this to my attention.

Yes, satan is in our schools.

A series of books written by: Gillian Cross and adapted to become a tv series
Apparently there was a school project to make a movie trailer for this.
Show the beginning to 1:16 – please

<https://www.youtube.com/watch?v=Wn-GyOMc6V8>

One project said this: Has your teacher ever tried to hypnotize you?

AN HOUR OF CODE

The Hour of Code is a global movement reaching tens of millions of students in 180+ countries. Anyone, anywhere can organize an Hour of Code event. One-hour tutorials are available in over 40 languages. No experience needed. Ages 4 to 104. The Hour of Code is a one-hour introduction to computer science, designed to demystify code and show that anybody can learn the basics. This is being heavily promoted and they are saying it is because it is now and is the future.

198,474 Hour of Code events around the world

Over 100 million students have tried this.

Microsoft partnered with Mojang to teach kids the basics of coding. Google is promoting this as well.

Let's take a deeper look at it. From the official website you see one of the program tutorials you can use to learn to code.

Partner tutorials for Grades K-8

Hour of Code
Learn to Code
Change the World

Build your own game

Tynker

Play fun coding games to learn to code. Use programming to complete a spooktacular Monster High scavenger hunt, program a Hot Wheels car, plan your war strategy against invading goblins, and even battle monsters. Learn key programming concepts and computational thinking skills as you play. Then build your own games and share them with friends!

Ages 5-13 | Modern web browsers.

Go

Ogres = An **ogre** (feminine ogress) is a being usually depicted as a large, hideous, manlike monster that eats human beings. **Read the caption: python spirit = **Acts 16:16** – And it came to pass, as we went to prayer, a certain damsel possessed with a spirit of divination met us, which brought her masters much gain

by soothsaying.** Notice this game has humans fighting monsters as in humans fighting fallen angels/demons.

Luke 17:26 – And as it was in the days of Noah, so shall it be also in the days of the Son of Man. **Remember in Noah’s day the flood was coming in which God dealt with wiping out the offspring of the nephilim and all evil off the earth. They are back and we are at that same time again.**

Gates uses a zombie to help explain Hour of Code. Zombies represent the walking dead or rephaim – offspring of the nephilim. They want to kill humans.

Isaiah 26:13-14 – O LORD our God, other lords beside You have had dominion over us: but by You only will we make mention of Your name. They are dead, they shall not live; they are deceased; they shall not rise: therefore hast thou visited and destroyed them, and made all their memory to perish. **Some believe that when the rephaim/gibborim/Anakim – giant offspring of the nephilim (fallen angels in Gen. 6) died in the flood that their spirits became disembodied evil spirits and that we are dealing with them today. They are demons seeking to inhabit human bodies and taint the DNA today still.**

While Zuckerberg used the angry bird to show repeating loops.

Karlie Kloss said coding is the language of the future and talked about how it is a superpower like having a weapon. She ended by saying she spends so much time playing the games which are so much fun and are probably targeted to like 12 year olds. **These kind of games are designed to engage you into wasting countless hours on satan and not on the Lord. Who are you glorifying or honoring with your time??** Gabe Valve said, “When you are programming, you are teaching possibly the stupidest thing in the entire universe how to do something.” **Now we have technology that is outthinking us, it is thinking on its own for itself.** Will I am said, **by the way – look at that mockery – purposely separating his name so that I am appears in it. ** “It should be mandatory to be a citizen on this planet, to read and write code.” Software is really about humanity, it is really about helping people by using computer technology. The programmers of tomorrow are the wizards of the future, you are going to look like you have magic powers compared to everybody else. **This reminded me of the “super soldiers” who have been taught to use telepathy to communicate with each other without the use of radios or actually speaking. They are considered more advanced than regular soldiers without these capabilities. It also reminded me of information I have seen presented where your child could get a computer

chip implanted to enhance their intelligence and then they would far exceed the students that don't have the implant.**

Wizards – what does God think of them?

Lev. 19:31 – Regard not them that have familiar spirits, neither seek after wizards, to be defiled by them: I Am the LORD your God.

They said code is the closest thing we have to a superpower.

.

Youtube channel – code.org has videos up to 2 years ago.

They have celebrities endorsing this, surfers on surf boards and a laptop, government officials, really a big push and campaign for this. Trying to present it as cool and the biggest thing going. Government officials are really pushing this and we know who they represent and it is not God. So when you see Bill Gates who is a depopulationist and illuminati pushing this, Obama who is muslim and other illuminati puppets pushing this, you know it is part of their plan to infiltrate young minds and get to the population for their purposes.

When Michael brought this to my attention he shared a short video made by a concerned mom who had just found out her children were doing this in school. I listened to her message and read through the comments and gleaned information from there. Many of the people indicated that their children were playing Minecraft during this class. So I first began to research minecraft.

First of all Minecraft actually is a metaphor for Mind craft. This is something that satanist do, always a play on words, or spelling things backward, or changing a letter etc.

Markus Persson created minecraft. He is also the composer of the musical tune called "satan Looks after my children". There are dragons, portals (CERN) and aliens (demons) in this game. Star Wars – the force awakens in minecraft. Mario is in this game and you can get a "hitler" skin for your character too. Markus' character in the minecraft game is called 'Notch.'

Minecraft is split into two separate game modes. Creative and Survival. You can play both of them in multiplayer. If you're mostly interested in making huge structures from scratch with unlimited resources, Creative mode is your best bet.

You won't see any enemies, and you can pull blocks of all shapes and sizes out of thin air. It's a peaceful world.

However, if you'd prefer to adventure into a world of danger, where you're crafting and creating out of necessity, you'll probably want to play in Survival mode. That comes with gangs of monsters who want to break/explode/eat your bones, one pixel at a time. You'll need to protect yourself from the creatures that come out at night.

Normal/hard/easy/peaceful – in peaceful your health regenerates

5 worlds – all of these games with “worlds” is promoting or insinuating about astral projection. Life on other planets etc.

Hard = survival mode

Everything in this game is in block or cube form. **I will probably be covering this next week.**

When the sun goes down in the game it gets dark and the mobs come out. Mobs = monsters Who represents darkness – satan.

John 9:4-5 – I must work the works of Him that sent Me, while it is day: the night cometh, when no man can work. As long as I Am in the world, I Am the light of the world.

.....

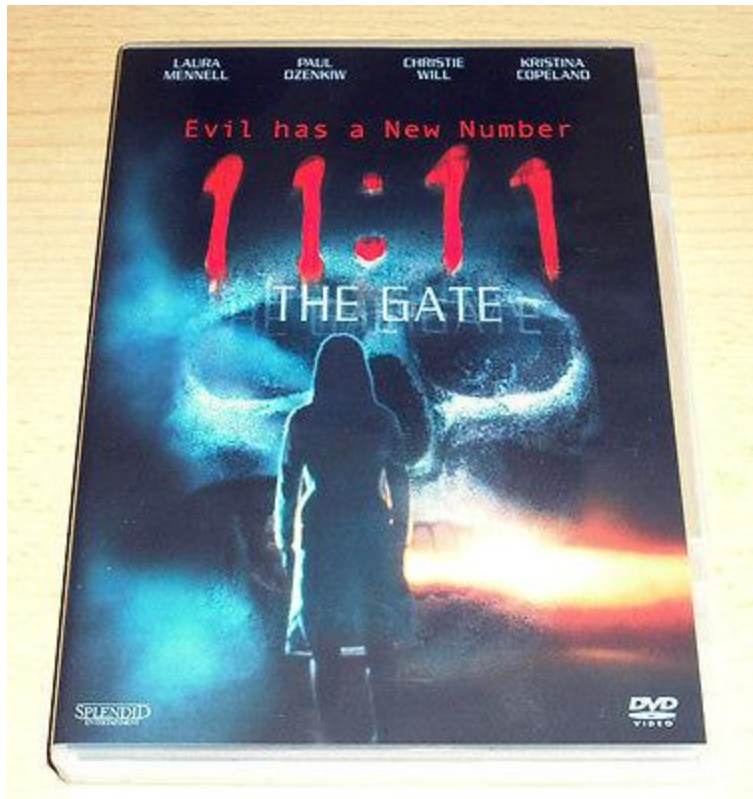

This game is popular with pedophiles and those that want to get at your children. They can come online and play with your children. There are perveted things they can do in this game. They also can tell the kids to do what they want or else they will destroy all that they have created in their game.

Can strangers contact my kids while playing?

Only if they're playing on a multiplayer server with the chat feature turned on. Single player and multiplayer LAN games are totally safe, as they're restricted to the player or those who are physically nearby and can connect to the same network they're using. For console versions, strangers can be blocked by setting the game to 'invite only' or leaving the 'online' button unchecked.

Minecraft was released on 11/11 in Las Vegas. "Sin City"

.....

The Gate 11:11 “evil has a new number”

Matt.16:18 – And I say also unto you, That you are Peter, and upon this rock (that He is the CHRIST) I will build My church; and the gates of hell shall not prevail against it.

Rev.9:2-3 - And he opened the bottomless pit; and there arose a smoke out of the pit, as the smoke of a great furnace; and the sun and the air were darkened by reason of the smoke of the pit. And there came out of the smoke locusts upon the earth: and unto them was given power, as the scorpions of the earth have power.

Remember the gates of hell will not prevail against the Lord’s church. By chapter 9 – the church is gone – raptured out in chapter 4 of Rev. to be with Christ.

The creator of the game, Markus Persson originally called the game – minecraft: the order of the stone. The order of the stone was a “new religion.”

List of Discoveries

I Am Alien Consciousness.

Behind all the Gods and Religions of Earth is a Cosmic Intelligence which I can download.

I Am A Transcosmic Being.

Our Alien selves have returned to assist us on our eternal journey though the Galaxies.

Can we know the cosmic science that is beyond mind? Yes!

Can we make the journey without that knowledge? No!

Do you desire an eternal life?

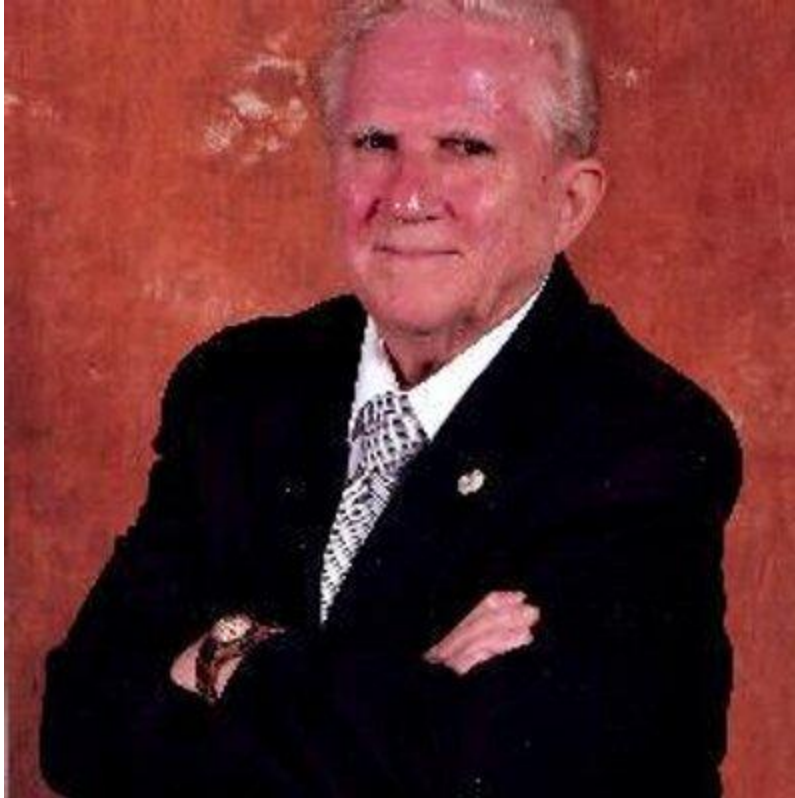

Don't Be Left Behind!

Order of the Stone

This stone was left by Aliens in the dunes of Montauk, N.Y. as an effigy upon which to focus for downloads of the cosmic science we need to shift into Alien Consciousness. Come listen. Come study. Make the journey with us. We are Transcosmic Beings!

When the creator of the “Religion of the Stone” Joe Trolly found the stone, 7 years later it began speaking to him. This interview was back in 2011. He “received” a whole new interpretation on the life of Christ. He (Jesus) was very connected to aliens, he said, “I wouldn’t be surprised if He (talking about Jesus) was an alien Himself.” He goes on to say that Jesus said He was one of those Who was chosen to channel (be possessed by them – aliens/demons). He says, Holy Spirit (Ka, Chi etc.) is radiation from the “big bang.” We have the ability to rearrange DNA to create new creatures and new containers (which are humans) and to evolve in a dynamic way.

This game minecraft is “predictive programming.” What you focus on and spend your time on opens doors into your life for demonic activity and possession.

The opening of the games says let’s go to a place where everything is made of blocks where the only limitations is your imagination. No one can tell you what you can or cannot do, no rules to follow.

Notch, the creator of the game says he is God and has a temple in the game.

There is a one eyed satan in the game, you know that stands for horus/lucifer/nimrod.

The “greens” actually represent the aliens/devils/jinns in the game. There is a portion of the game where two players are talking to each other and one of them is satan.

“and the universe said everything you need is within you” This is the “we are gods mentality – we are going to become gods – Richard Seed and the elite believe this – this is what humanity is about – we don’t need God because we are god. This is great deception.

Minecraft hidden satanic alter

Suicide Island, satan's nest = HELL

There is a real demonic manifestation living within your children's computer games, and it is possessing them...literally taking over their minds and convincing them to murder other children, even their own parents.

This nasty, horrid demon lives in many of the games your kids are playing, from Minecraft and Xbox, to Sony Playstation and more... if your children are playing games on these systems, they are at risk!

One demon in particular who goes by Slender Man is having a huge impact on children who play Minecraft, as young as age four.

Has Slenderman struck again? There's been a second stabbing incident linked to Slenderman — this one occurring last week in Ohio. An Ohio mother says her daughter's writings have always been dark. They reference demons, being insane and falling into darkness.

However, the 13-year-old girl's mother never imagined her daughter would want to become one of the characters she frequently referenced. "I came home one night from work and she was in the kitchen waiting for me and she was wearing a mask, a white mask. She had her hood up and had her hands covered with her sleeves and the mask," the girl's mother said. She also had a knife – and began attacking her mother – right there in the kitchen.

*"Mentioned playing a role – got the feeling she was playing a role. It didn't feel like her at all," the girl's mother said. Now, after hearing about the two Wisconsin 12-year-old girls accused of stabbing their friend 19 times because they wanted to please Slenderman, the Ohio mom thinks the fictional horror character also had an influence on her daughter. "We found things she had written and she made reference to Slenderman. She also made references to killing. **She had even created a world for Slenderman in Minecraft** – in the game Minecraft," the Ohio girl's mother said. Stories of Slenderman often feature him stalking or traumatizing people. But in the Ohio case and in the Wisconsin case, fantasy turned into reality – and the Ohio mother says it should be a wakeup call for all parents.*

Parents.... would you protect your children from running out into the street in front of a car? Would you protect your kids from predators, kidnapers, and so forth? I am sure your answer is yes. Why are you not protecting your kids from satan and his minions? Do you not know that everything happens in the spirit first and that this physical life is just a mere manifestation of the spirit? That being said, satan is entering your home right now through your television, game systems, and even your computer! You must shut him out!

James 4:7 – Submit yourselves therefore to God, Resist the devil, and he will flee from you.

Closing:

If your children are playing Minecraft or other video games laced with satanic, occult messages (including sex, lust, violence, and more...) you are allowing

nasty demonic entities to walk right into your home and into your children's hearts. This is very real and it must be stopped at all costs!

Deut.11:18-23 - Read We claim this today.

Prov. 22:6 – Train up a child in the way he should go: and when he is old, he will not depart from it.

Heb. 13:8- Jesus Christ the same yesterday, and today, and forever. ****Why then do we think we don't have to be just as diligent teaching our children His ways today??****

PRAYER: Dear Heavenly Father, Thank You for Jesus, for our children.

Lord help us to teach and train them in Your ways. Help us to unplug them from the world. Father, surround them with a hedge of protection, with Christian friends. Pour out a spirit of boldness to stand for You and Your Kingdom into them. Anoint them to fulfill their purpose. Draw them by Your Holy Spirit.

Your Word says: Psalm 127:3-5 Lo, children are an heritage of the LORD: and the fruit of the womb is His reward. As arrows are in the hand of a mighty man; so are children of the youth. Happy is the man that has his quiver full of them: they shall not be ashamed, but they shall speak with the enemies in the gate. The gate was where judgments and rulings and decisions were made in Biblical times, and these children would subdue enemies in the gate. It was also where battles took place.
