

HURRICANE HARVEY DISASTER RELIEF No. 2

The road leading up to the Plum Grove river bridge was repaired making it easier for everyone to get in and out once again.

We learned the story of an 83 year old man who lost everything. Because he was living in a house registered in his daughter's name FEMA would not help with any damage repairs. He was hoping to maybe be able to get a travel trailer to live in. We were blessed to be able to give him a donation to help.

Another man was blessed to receive pump sprayers and a special chemical that was sent to the church to help with flood damage.

My brother who lost everything and didn't have any insurance was blessed to receive a donation to help with repairing his floor and re-leveling his house after the flood waters had washed out the blocking under his home.

Thank you to everyone who has sewn into this ministry and made the help that we were able to give possible. God will surely reward you for we serve a God of rewards.
