

# CHRISTIAN CHECK LIST

I have spoken with many people since this ministry began. What I am finding is that many people have not been discipled. They aren't reading their Bibles and growing in their faith. They are living defeated Christian lives if they are truly saved at all. They don't know how to fight because many churches have quit teaching on the blood of Jesus Christ and the power and authority He gives us. They do not mention binding and loosing which are keys to the Kingdom.

When a new Christian gets saved many times they don't know what to do from there and satan is quick to come in with a trial or test against them and they give up thinking Jesus isn't enough. All of this prompted me to do a New Christian Basics teaching to help disciple new Christians on how to get started growing in their faith and explain many basic things so that they understand how to walk with God. This is just a quick list of things you should be doing as a Christian. To learn more, please watch or listen to the New Christian Basic teaching series on our website: [www.threeheartschurch.org](http://www.threeheartschurch.org) or on our youtube channel: Three Hearts Church.
