Propaganda in the United States is spread by both government and media entities. Propaganda is information, ideas, or rumors deliberately spread widely to influence opinions. It's used in advertising, radio, newspaper, posters, books, television, and other media.

AMA Site Recommends Mandatory Vaccine Experiments

February 21, 2012

Take Control of Your Health

A paper published by the American Medical Association's *Virtual Mentor* is concerned that current enrollment in vaccine trials is extremely low.¹

The proposed solution?

Creating a federal law that would force each individual to make a "mandated choice" to participate in vaccine trials.

Such a law would give drug companies a more or less guaranteed supply of human guinea pigs.

To quote the polio vaccine developer Albert Sabin:

"I think to release certain information is not a public service. There's too much scaring the public *unnecessarily*. Oh, your children were injected with a cancer virus and all that. That's not very good!"

Americans are getting cancer faster than ever!

1994 *JAMA* article published in the USA TODAY:

"Baby boomers are much more likely to get cancer than their grandparents were at the same age."

<u>Judyth Vary Baker</u>	Develop the Bio-weapon
<u>Lee Harvey Oswald</u>	Judyth's Bodyguard and "runner" of the product. (Transport the product into Cuba)
<u>David Ferrie</u>	Participant: Ran the Little Lab

What they had done with the vaccines and cancer causing viruses was starting to come out so they decided to get Oswald out of there so he wouldn't spill the beans and send him to Dallas. Then they decided it would be easier to kill Kennedy instead of Castro.

Vaccine	Animal Byproducts
Measles (Attenuvax)	Chick embryo
Rubella (Blavax)	Human diploid cells from aborted fetal tissue
DPT (Diphtheria, Tetanus, Pertussis)	Washed sheep red blood cells
Small pox (Dryvax)	Vesicle fluid from calf skins
Flu Shot (Fluvirin)	Chick embryonic fluid
Chicken Pox (Varivax)	Guinea Pig Embryo Cells, Fetal bovine serum, Albumin from human blood, Diploid cells from aborted fetal tissue
Hepatitis A (Havrix)	Human diploid cells from aborted fetal tissue

They talked about this experiment to completely block the sun in Arizona in 2018. Remember those people from Mohave, AZ are already so sick from the chemtrails and have spoken out against them in their city council meetings. They have tested very high for these toxins. They have been getting ready to do their experiment there, no wonder they are so sick, they have been ramping up the chemtrail spraying so that they can block the sun there this year. They have already hit them so hard and now they are going to get the heaviest spraying of all.

Are New Vaccines Laced with Birth-Control Drugs?

During the early 1990s, the World Health Organization (WHO) had been overseeing massive vaccination campaigns against tetanus in a number of countries, among them Nicaragua, Mexico, and the Philippines. In October 1994, HLI received a communication from its Mexican affiliate, the Comité Pro Vida de Mexico, regarding that country's anti-tetanus campaign. Suspicious of the campaign protocols, the Comité obtained several vials of the vaccine and had them analyzed by chemists. Some of the vials were found to contain human chorionic gonadotrophin (hCG), a naturally occurring hormone essential for maintaining a pregnancy.

hCG and Anti-hCG Antibodies

In nature the hCG hormone alerts the woman's body that she is pregnant and causes the release of other hormones to prepare the uterine lining for the implantation of the fertilized egg. The rapid rise in hCG levels after conception makes it an excellent marker for confirmation of pregnancy: when a woman takes a pregnancy test she is not tested for the pregnancy itself, but for the elevated presence of hCG.

However, when introduced into the body coupled with a tetanus toxoid carrier, antibodies will be formed not only against tetanus *but also against hCG*. In this case the body fails to recognize hCG as a friend and will produce anti-hCG antibodies. The antibodies will attack subsequent pregnancies by killing the hCG which naturally sustains a pregnancy; when a woman has sufficient anti-hCG antibodies in her system, she is rendered incapable of maintaining a pregnancy.(1)

* WHO has been actively involved for more than 20 years in the development of an anti-fertility vaccine utilizing hCG tied to tetanus toxoid as a carrier — the exact same coupling as has been found in the Mexican-Philippine-Nicaragua vaccines.(4)

The Anti-Fertility Gang

Allied with the WHO in the development of an anti-fertility vaccine (AFV) using hCG with tetanus and other carriers have been UNFPA, the UN Development Programme (UNDP), the World Bank, the Population Council, the Rockefeller Foundation, the All India Institute of Medical Sciences, and a number of universities, including Uppsala, Helsinki, and Ohio State.(5) The U.S. National Institute of Child Health and Human Development (part of NIH) was the supplier of the hCG hormone in some of the AFV experiments.(6)

Please play from 1:05 to 2:21 – Bill Gates is giving a talk at “TED” about how we are going to get our CO2 down and he proposes that vaccines, health care and reproductive health services will help to cut the rising population. (about 1 min.)

<https://www.youtube.com/watch?v=6WQtRI7A064>

I used to not understand how he was going to get the population down through vaccinations – but we know now and here's another example:

The World Health Organization has been researching aerosol vaccines for years now, as have “philanthropic” agencies which have clear aims to sterilize the population. It is also worth noting that the pharmaceutical industry has been **absolved from any legal responsibility** for medicating the masses since they were awarded legal protection from all lawsuits by Congress in 1986. This law was challenged, but **upheld by the U.S. Supreme Court** in 2011. Many powerful agencies are making sure that we “take our medicine.”

In fact, many nations are participating in our unwitting, forced vaccination, and the dumping of any number of attenuated viruses, chemical concoctions and other ‘chemtrails’ on our heads with dogged frequency.

The Office of the Gene Technology Regulator (OGTR) considered giving a license application to PaxVax Australia (PaxVax) for the intentional release of a **GMO vaccine** consisting of live bacteria into the environment in Queensland, South Australia, Western Australia and Victoria. They planned to release cholera on their people.

According to the regulator, this **GMO** vaccine qualified as a limited and controlled release under section 50A of the Gene Technology Act 2000.

Who makes these laws? **THEY DO!** They declare how many people is an acceptable amount to kill and what is not.

Meanwhile, should the over-medicated start to actually figure out what is being done to them, the **government has imposed gag orders** on the National Weather Service (NWS) and the National Oceanic and Atmospheric Administration (NOAA) who might easily refute the ridiculous claims of NASA.

Notably, every single person who works for NASA, the NWS or NOAA are paid with tax payer dollars. **This means that we are paying to be medicated and poisoned.**

The Egyptians could see that the Israelites were growing in number and they did not want them to be greater in number than they were. They wanted to continue to control them and use them as slaves for their own benefit. So pharaoh came up with a plan to keep them subdued.

Exodus 1:15- 22 - And the king of Egypt spake to the Hebrew midwives, of which the name of the one was Shiphrah, and the name of the other Puah: And he said, When ye do the office of a midwife to the Hebrew women, and see *them* upon the stools; if it *be* a son, then ye shall kill him: but if it *be* a

daughter, then she shall live. But the midwives feared God, and did not as the king of Egypt commanded them, but saved the men children alive. And the king of Egypt called for the midwives, and said unto them, Why have ye done this thing, and have saved the men children alive? And the midwives said unto Pharaoh, Because the Hebrew women *are* not as the Egyptian women; for they *are* lively, and are delivered ere the midwives come in unto them. Therefore God dealt well with the midwives: and the people multiplied, and waxed very mighty. And it came to pass, because the midwives feared God, that he made them houses. And Pharaoh charged all his people, saying, Every son that is born ye shall cast into the river, and every daughter ye shall save alive.

Polysorbate 80

Why is it used in medicine? It is used as an ingredient in some vaccines, as well as in some vitamins and supplements. Polysorbate 80 is used to improve the consistency of gel capsules and to make pills disperse in the stomach.

Should we be worried?

Let's see what the Material Safety Data Sheet for polysorbate 80 has to say:

- Slightly flammable to flammable in presence of heat
- Slightly hazardous in case of skin contact (irritant), of eye contact (irritant), of ingestion, of inhalation.
- May cause adverse reproductive effects based on animal test data. No human data found.
- May cause cancer based on animal test data. No human data found.
- May affect genetic material (mutagenic)

However, it is also listed in the handbook of green chemicals.

What about scientific studies?

There are many published studies which analyze Polysorbate 80, but it is important to recognize their limitations before generalizations are made.

This study suggests a link between the ingredient and infertility in mice.

The relative weight of the uterus and ovaries was decreased relative to the untreated controls. Ovaries were without corpora lutea, and had degenerative follicles.

It was seen to accelerate the maturation of female rats and resulted in deformities of the ovary. These effects were demonstrated in newborn mice which were injected with Polysorbate 80. It is certainly a concern when we consider that some vaccines may contain Polysorbate 80.

A recent study has shown a real connection between ingesting Polysorbate 80 and the development of bowel problems – it could be a real worry for those with a predisposition to Colitis.

Relatively low concentrations of two commonly used emulsifiers, namely carboxymethylcellulose and polysorbate-80, induced low-grade inflammation and obesity/metabolic syndrome in wild-type hosts and promoted robust colitis in mice predisposed to this disorder... These results support the emerging concept that perturbed host–microbiota interactions resulting in low-grade inflammation can promote adiposity and its associated metabolic effects. Moreover, they suggest that the broad use of emulsifying agents might be contributing to an increased societal incidence of obesity/metabolic syndrome and other chronic inflammatory diseases.

In a similar vein, the study linked here connected Polysorbate 80 to exacerbated Crohn's Disease.

When Kennedy was vaccinated they gave us some leaflets about what to expect. But those leaflets did not specify what was in the vaccines. I think they know that if more people knew what was in those shots, they would refuse them. I had to go to the CDC's website to find the following information all about what was in the shots that we allowed them to give Kennedy. Shame on us for failing her as parents. For failing to do our due diligence as parents. I know now and will never of my own free will allow her to be vaccinated or given a flu shot ever again. I have sat her on my knee and apologized to her and asked God's forgiveness.

SO SCOTT AND I NEEDED SOMETHING FROM THESE ANIMALS TO MAKE OR KEEP KENNEDY HEALTHY?

You want to know why they are injecting/infecting us with all of this animal dna and baby dna. They are hoping to break down our dna chain and rebuild it, to

splice into it and have us turn or morph into something else. They are experimenting on us. As Harald Vella revealed they have split our DNA into RNA and are working to rebuild our nervous system for their purposes.

CHIMERA:

2 Samuel 23:20 - And Benaiah the son of Jehoiada, the son of a valiant man, of Kabzeel, who had done many acts, he slew two lionlike men of Moab: he went down also and slew a lion in the midst of a pit in time of snow:

There certainly have been ancient depictions of lion like men. On the right, the sphinx comes in different forms but one common form is the body of a lion and the head of a man.

The **manticore** ([Early Middle Persian](#) *Mardiyakhor*) is a Persian [legendary creature](#) similar to the Egyptian [sphinx](#). It has the head of a human, body of a [lion](#) and a tail of poisonous spines similar to [porcupine](#) quills, while other depictions have it with the tail of a [scorpion](#). There are some accounts that the spines can be shot like arrows, thus making the manticore a lethal predator. It eats its victims whole, using its triple rows of teeth, and leaves no bones behind.

Isaiah 13:21 - But wild beasts of the desert shall lie there; and their houses shall be full of doleful creatures; and owls shall dwell there, and satyrs shall dance there.

Satyr, pan, faunus, satan.

1 Samuel 5:2-5 tells the story of when the Philistines captured the Ark of the Covenant from the Israelites and set it in the temple of dagon beside dagon. God made dagon bow to Him and in doing so He broke off his hands and his head. The catholic church continues in worship of dagon to this day.

CLOSING

Gen. 6:4 - There were giants in the earth in those days; and also after that, when the sons of God came in unto the daughters of men, and they bare *children* to them, the same *became* mighty men which *were* of old, men of renown.

Enoch – 7 - 7:1 - And they took wives unto themselves, and everyone respectively chose one woman for himself, and they began to go unto them. And they taught them magical medicine, incantations, the cutting of roots, and taught them about plants. 7:2 And the women became pregnant and gave birth to great giants whose heights were three hundred cubits. 7:3 These giants consumed the produce of all the people until the people detested feeding them. 7:4 So the giants turned against the people in order to eat them. 7:5 And they began to sin against birds, wild beasts, reptiles, and fish. And their flesh was devoured the one by the other, and they drank blood. 7:6 And then the earth brought an accusation against the oppressors.

“We can make an animal without a heart. We have engineered pigs that lack skeletal muscles and blood vessels,” says Daniel Garry, a cardiologist who leads a chimera project at the University of Minnesota. While such pigs aren’t viable, they can develop properly if a few cells are added from a normal pig embryo. Garry says he’s already melded two pigs in this way and recently won a \$1.4 million grant from the U.S. Army, which funds some biomedical research, to try to grow human hearts in swine.

Because chimeras could provide a new supply of organs for needy patients and also lead to basic discoveries, researchers including Garry say they intend to press forward despite the NIH position. In November, he was one of 11 authors who published a letter criticizing the agency for creating “a threat to progress” that “casts a shadow of negativity” on their work.

“The specter of an intelligent mouse stuck in a laboratory somewhere screaming ‘I want to get out’ would be very troubling to people.”

And then the earth brought an accusation against the oppressors...

We are right back in those same days, the days of Noah. We have had testimony about what is being created in the D.U.M.B.S. and labs around this world. They are just keeping these monstrosities somewhat hidden for now. There’s coming a time when they will unleash their creations onto this world. We have already gone too far in the name of science.

Are we this desperate to stay alive? At what point should we just say a person is beyond the point of saving? Where has our dignity gone? When you have faith in God and love Him, you are not afraid of dying. Yes, we hurt and grieve when we lose someone, but God helps us to heal and strengthen and go on knowing we will see them again if we live obediently for Him.
