

## PHARMAKEIA Pt. 6: HALLUCINOGENS, MEDICAL INDUSTRY, DRUGS, ALCOHOL, SMOKING

We have already learned that the different root words of pharmakeia are speaking of a druggist, a poisoner, a giver of potions used by sorcerers, enchanters and witches. They were trying to induce hallucinations, visions, spiritual ecstasy etc. on purpose through the use of drugs, potions and poisons. They did this in the name of healing or connecting to the gods or seeking guidance from the gods. These are the things that went on in the temples of false gods. This is what the pagans did and still do today. This is what was happening in Diana's temple, in Apollo's temple, in Zeus' temple, in Babylon etc.

Witch doctors, "Medicine men" and shamans still do it today. They are practicing the sorcery of ancient times. They put those who come to them in contact with demons or entities of the spirit realm through the use of potions and drugs. They themselves are inhabited by demons and aligned with them, using them in their witchcraft.

The concoctions and drugs they give or take themselves cause hallucinations, trances and or a type of spiritual ecstasy. This process opens them up to evil spirits. These are witches and they make potions. It works both ways, sometimes they use these potions on themselves and then speak what the demons tell them to and sometimes they give them to their customers and let them hallucinate or go into a trance or a state of spiritual ecstasy.

Truthers flooded the internet saying that the vaccines are pharmakeia. I am not in approval of any vaccine, they were created to harm and kill if possible. You can

search out the sermons I have given on vaccines to learn truth about them. However, no one has reported hallucinating, seeing visions or having supernatural experiences because of them. No one is going into a spiritual ecstasy because of a vaccine.

These truthers run out and teach lies and no one holds their feet to the fire. They will not stop either, this won't be the last spiritual thing they get wrong. They are working an agenda for those that follow them.

Many of them said that all the people who took the vaccines would be dead in 5 mos., a year, 2 years etc. That has not happened. Many have died because of them but not everyone. I know a lot of people that took them and they are still alive. I am not endorsing vaccines, I am against them. Never forget that God is also merciful and He holds the number of our days in His hands. We are praying for our family and friends to be saved and to wake up about harmful vaccines and for God to be merciful to those that have taken them. Who knows if some of them are being spared for that very reason.

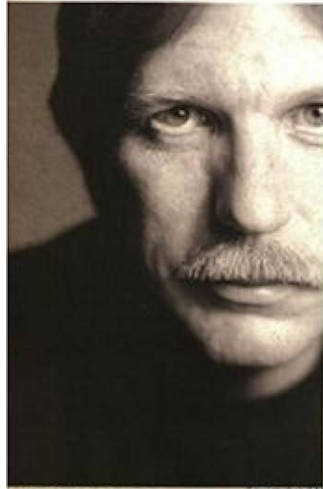

With that being said, I know that many are dying because of vaccines. I saw some information the other day from a political meeting in the Philippines where they were questioning death and birth rates. They were concerned because the birth rate is going down and one lady said that women were having fertility problems and many were choosing to have smaller families etc. One of the things the vaccines target is fertility and fluoride in the water targets that also, as does estrogen in the plastics that are seeping into our bodies and feminizing our men. But on their statistics, what I noticed is a huge spike in the death rate for the year 2021. The five years preceding, the death rate only fluctuated by about 10,000 to 20,000 people each year. But for the year 2021, once the vaccines for covid got out there, the death rate zoomed up by almost 259,000 deaths. That's alarming! That's like 1,300% increase in deaths! I'm sure the U.S. is cooking the books on the death rate statistics by now. Because there is a war on truth.

Here is the modern day witch doctor. The drug dealer is getting the product out to the solicitors or customers. Street drugs will connect them with evil entities. The major drug dealers and deals are headed up by our own government. Remember our world governments are the beast system. Think back to Rev.18:23, God was talking to Mystery Babylon and He said that her merchants were the great men of the earth. The NIV says they were the most important people. That is what our leaders and world governments are considered, the ones who rule over us in this physical world.

# KILL THE MESSENGER

By NICK SCHOU How the CIA's Crack-Cocaine Controversy Destroyed Journalist Gary Webb

"[Webb] deserves to be remembered in the proud tradition of muckrakers like Ida Tarbell, George Seldes, and I.F. Stone."

—JEFF COHEN, FAIR

Introduction by CHARLES BOWDEN

Gary Webb, who committed suicide in December 2004, is the former *San Jose Mercury News* reporter whose 1996 series on the so-called CIA/crack cocaine connection created a firestorm of controversy and led to his resignation.

Kill the Messenger – By Nick Schou. How the CIA's crack-cocaine controversy destroyed journalist Gary Webb. Gary Webb, who committed suicide in December 2004, is the former San Jose Mercury News reporter whose 1996 series on the so-called CIA/crack cocaine connection created a firestorm of controversy and led to his resignation. You can do research on Gary Webb who supposedly committed suicide by shooting himself in the head, not once but twice! - He exposed the CIA drug running. He was an honest reporter.

To be clear, our governments are making sure to get hallucinogenic drugs, dangerous and damaging drugs out to the masses. They want to get as many people hooked as they can and kill as many as they can. The hallucinogenic type drugs will alter your state of mind and connect you to the demonic realm.

Some believe that simply taking medicine of any sort is pharmakeia. Let's go to Prov.17:22.

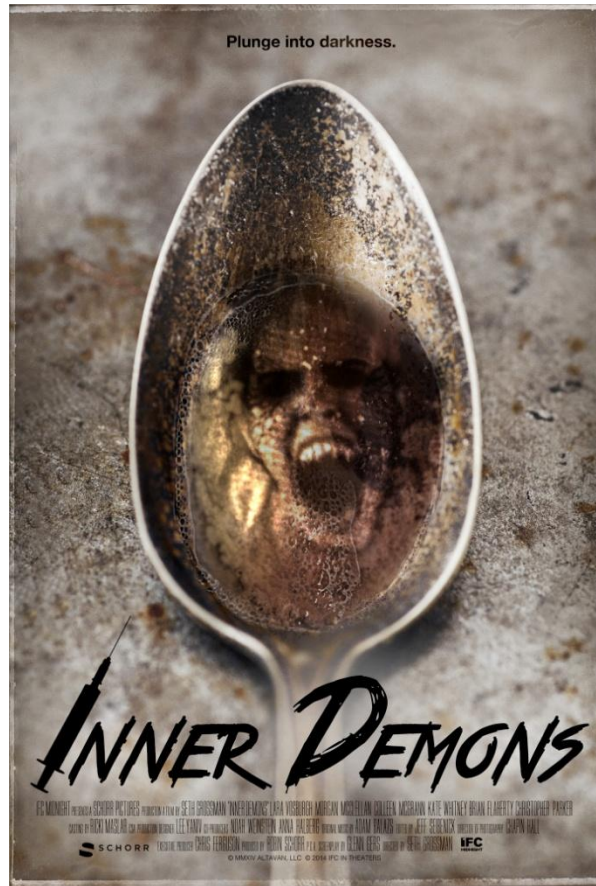

**Prov.17:22** - A merry heart doeth good like a medicine: but a broken spirit drieth the bones.

There was some "doctoring" going on in Scripture with balms, wines, oils and even eye salve.

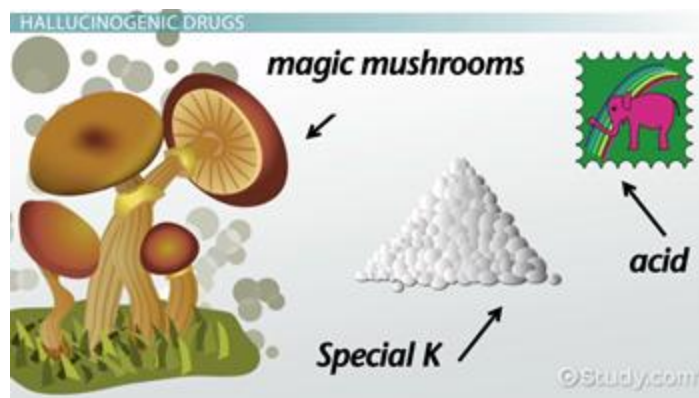

Jesus said in Luke **(Luke 5:31-32)** that those that were whole did not need a physician but those that were sick. Jesus would not have used a physician in His statement here if He was against us going to a physician at all. He actually compared Himself to a physician because He was the One Who could heal those who were sick. Jesus offered spiritual healing first of all as well as physical healing.

We know that Jesus alone is our Healer. He can heal through dr's or through natural means (things we do or take or stop doing or stop taking) or He can heal supernaturally. God made our bodies to naturally heal own their own from many things but our world has been so corrupted that we are fighting things in our bodies that never should have been there like gmo's, chemicals, nanotechnology, growth hormones, smart dust, fibers etc. And unfortunately the medical industry has been corrupted and many dr's are only in it for profit. Big pharma is chasing money, and keeping people injured and sick increases their bottom line. Insurance controls the doctors and the patients, and a lot of doctors pad their pockets in deals with big pharma. Many honest medical practitioners have been run out of business.

The sorcery mentioned in the Bible that has to do with pharmakeia is more about witchcraft and sorcery in the sense of altering the state of mind of the person on purpose for demonic interaction or even possession. Typical modern medicine is not producing these effects. However, the psychiatric side of medicine seems to be moving in that direction or using these type of drugs on people and some of this has seeped into the regular medical industry. If you have been given a medicine that is causing you to hallucinate, I would be doing my best to get off of that medicine.

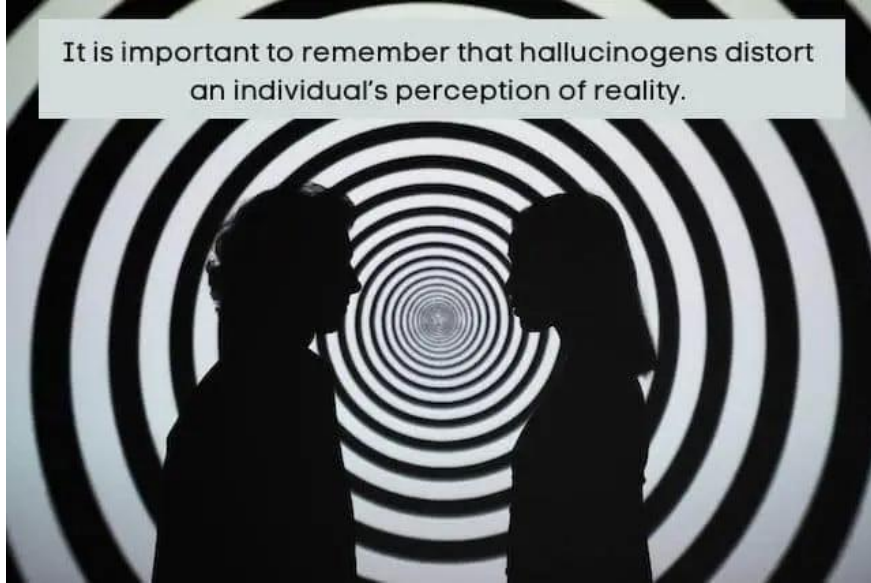

Inner demons – this movie says it all. The main character was doing drugs and believes they are possessed by demons. Hollywood, one of satan’s major platforms, puts the truth out there for us in movies. This is a form of pharmakeia – drugs inducing interaction and even possession by demons.

Here are more forms of pharmakeia, street drugs, hallucinogens, psychedelics like acid, magic mushrooms and special k.

It is important to remember that hallucinogens distort an individual's perception of reality.

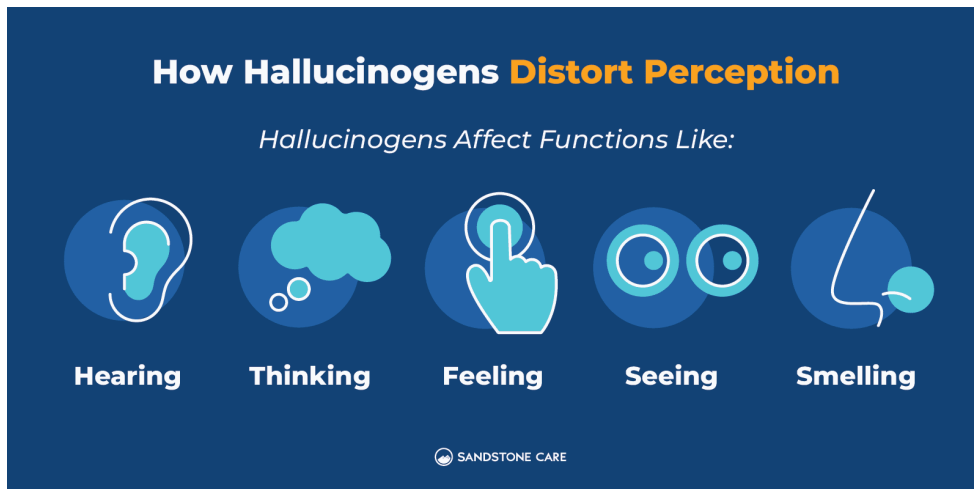

It is important to remember that hallucinogens distort an individual's perception of reality. When you mess with your mind with these type of drugs, you are not staying sober and vigilant as the Bible tells us to. **(1 Peter 5:8)** You are acting in sin against God and you open yourself up to the kingdom of darkness.

The Scientist – September 2007 issue: Exploring life, inspiring innovation. Healing with Hallucinogens – The therapeutic benefits of psychedelic drugs. Now we can see that government paid for science and medicine are introducing pharmakeia into their methods. Behind it all, at the top levels, are luciferians who know full

well what these type of drugs will do. Our medical doctors are conditioned and trained to believe in government paid for science and medicine. Have you ever noticed how medical doctors that push pills and drugs at you, stand against natural methods and means of healing? They act like changing your diet is nonsense or using supplements is ridiculous. They scoff at those things because it has nothing to do with what they have been taught.

satan's servants are at the top levels of government, top levels of mega corporations, top levels of the pharmaceutical and vaccine manufacturing companies. Ultimately they are witches and they want nothing more than to deceive and draw as many away from Jesus as they can. That is why new age is so predominant in this world. It connects those that practice it directly with fallen angels, just like these drugs do. If you think that is a bold statement saying they are witches and luciferians, remember how much ground they made through the covid-19 agenda. They started testing the waters trying to make the vaccines mandatory. The government is the beast system and they do serve satan's agenda. They attend rituals and offer sacrifices all in worship of lucifer. Ted Gunderson spoke out about them, Fiona Barnett has spoken out about them, Donald Marshall has spoken out about them and so many more. I have a list of many people that have spoken about these very things but they have been silenced.

How hallucinogens distort perception. Hallucinogens affect functions like: hearing, thinking, feeling, seeing and smelling. When the person is high and strung out, and their state of mind is altered, when they are in a hallucinogenic state, it is easy for a demon to interact with them. When my brother was high the demons would come right next to him, he could feel them and they would speak

right into his ear and it was a super scary experience for him. But at the time, he kept doing the drugs.

**1 Peter 5:8-9** – Be sober, be vigilant; because your adversary the devil, as a roaring lion, walketh about, seeking whom he may devour: Whom resist stedfast in the faith, knowing that the same afflictions are accomplished in your brethren that are in the world.

When you do mind altering drugs, you are not keeping your mind sober, keeping your faculties about you and you certainly are not being vigilant. You will be caught off guard because you are playing right into the enemy's hands. Opening the door wide to him and inviting him in because you are going against God's word and are in sin against Him. He did not create us to be smashed out of our minds. You are not resisting satan when you are doing these type of drugs and now the medical industry is introducing these type of drugs to the world and it is especially predominant in the psychiatric industry.

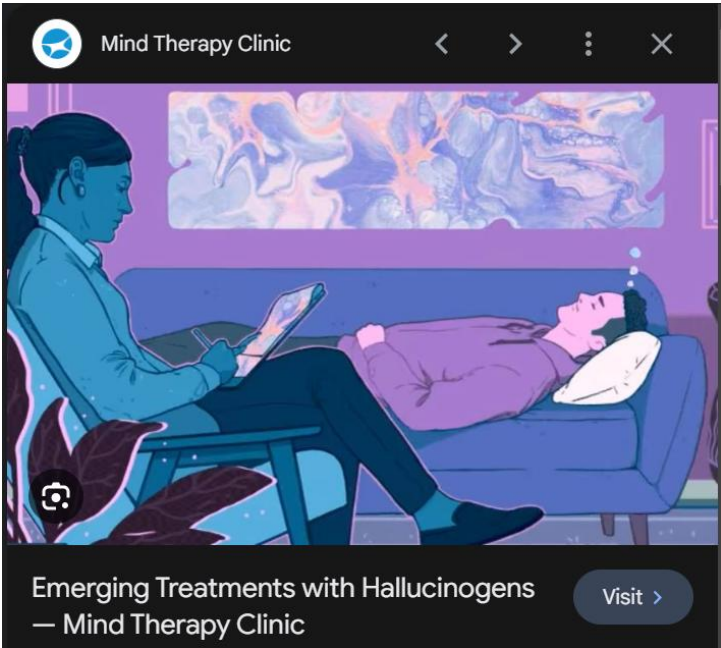

**2 Tim.1:7** - For God hath not given us the spirit of fear; but of power, and of love, and of a sound mind.

God made us with sound minds. There are a lot of drugs being doled out in the psychiatric industry and a lot of mind manipulation going on there. Sometimes there are true chemical imbalances but a lot of people just don't have Jesus, and are looking to man to fix things that have been brought about through sinful lives. When it is a spiritual problem, it is never going to be fixed through drugs or chemicals.

## **MODERN DAY USE OF HALLUCINOGENS**

Smithsonian Magazine – How Witches’ Brews Helped Bring Modern Drugs to Market. Those ancient practices have been repackaged and now they have made their way into the medical industry, they are on the streets as illicit drugs, and sold in supermarkets in the form of cigarettes and alcohol.

Mind Therapy Clinic – Emerging treatments with hallucinogens. Does satan want people on these drugs – you better believe it! He is making a lot of progress in the medical industry for his kingdom. Killing, crippling and messing up lives. I’m not saying everything about modern medicine is bad but it is heavily leaning in that direction.

taking them as the chemistry of the drug itself. Several similar hallucinogenic substances are grouped together as “dissociatives,” for their ability to separate sensory inputs from perceptions, allowing a user to feel like they have removed themselves from their body, dissociated from their physical form. These trances or “out-of-body” experiences are the effects desired by those taking these drugs recreationally, but they also can be medically useful; dissociative drugs such as ketamine are regularly used as anesthetics during surgery. Generally these substances block NMDA receptors, which mediate communication in the brain, resulting in lost connections between the conscious brain and its sensory inputs. Other dissociatives can also be used medically, such as dextromethorphan (DXM), the drug which gives Robitussin its cough-suppressing ability; or they can be used illicitly, such as phencyclidine (PCP).

Other dissociatives can also be used medically, such as dextromethorphan (DXM), the drug which gives Robitussin its cough-suppressing ability; or they can be used illicitly, such as phencyclidine (PCP).

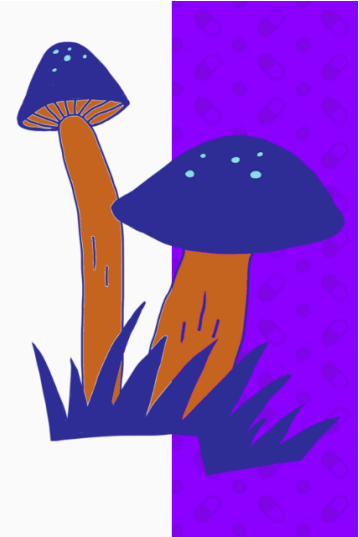

Some of these drugs are why so many people are having these out-of-body experiences in hospitals and other settings. It is drug induced.

But the most well-known group of hallucinogens are undoubtedly the psychedelics. The name comes from the Greek for “mind manifesting,” since these drugs are known for expanding the mind and dissolving the ego. This group includes Lysergic Acid Diethylamide (LSD), psilocybin (the active ingredient in magic mushrooms), and mescaline (often from the peyote cactus).

These type of drugs are used in psychotherapy.

More and more Americans are taking hallucinogenic drugs.

From Health Hive: Hallucinogens and mental health treatment: What research shows...

From Everyday Health – Therapeutic psychedelics: How psychedelic medicine is used in a therapeutic way.

Doping someone when they are about to die so that they are not in pain has also taken away powerful testimonies about what is happening spiritually at the point of death. We don't hear someone screaming about the flames of hell or the scary things that are happening because of their denial and rejection of Christ. Too bad, because those things that happen at the point of death were some very powerful witnesses for us in this life to know God's Word is true and that hell is very real.

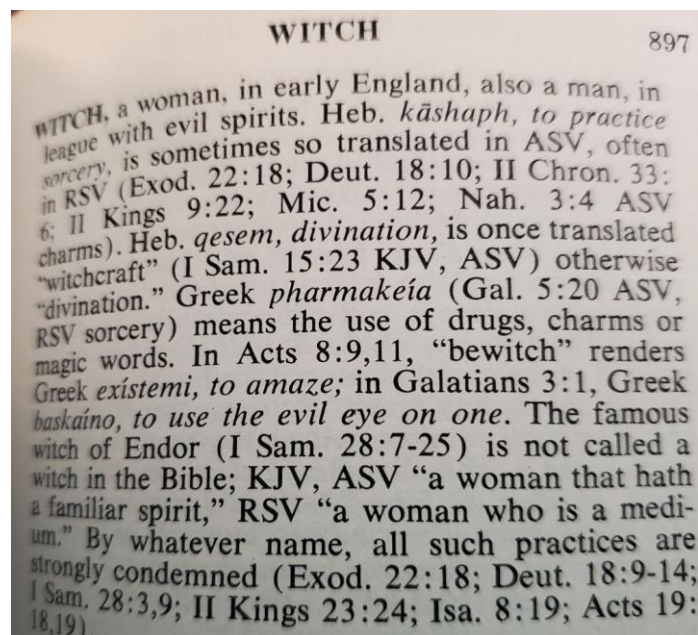

Drugs that people take like lsd are more in line with pharmakeia in the sense of hallucinations and the connection to evil spirits is the idolatry part. You could look at the government as being a sorcerer (pharmakeia) in that way because ultimately they are the ones supplying lsd - they run the drugs - or the CIA does and still, that's government. So they are the suppliers to all the drug addicts and the drug addicts are not in their right minds when they are on those drugs they are opened up to a world of demons.

The luciferians practice black magic and they are practicing ancient pharmakeia as well as introducing the world to pharmakeia through modern methods. Luciferians still do incantations, rituals, chanting, potions, spells and conjuring at

the top levels and they try to open portals and unleash dark spirits into this world. Witch doctors, medicine men, shamans and plain old witches still exist that people go to for healing, guidance etc. That type of pharmakeia is still being practiced. There are many levels and layers to pharmakeia. Or that is, many different ways to practice it today.

Doctors and pharmacists aren't blameless. Shame on them for going along blindly and believing the non-sense they have been taught and for their role in helping to make us sicker. What a mess we've gotten into with all of this.

One form of pharmakeia is people going to sorcerers, witches and enchanters and paying them for potions or drugs to solve their problems, to heal them, to get what they want – love, money, to curse someone etc., and some go seeking the supernatural, seeking spiritual guidance from the gods. In so doing, they are opened up to demonic spiritual interaction.

Let's look at this definition of a witch and pharmakeia again. Go to the middle where you see Greek pharmakeia: means the use of drugs, charms or magic words. I just want to focus on that part. Just the plain old use of the type of drugs that I have spoken about today is pharmakeia. Because it alters the state of your mind, it is against God's Word and will for your life. So if you use those type of drugs you are in sin against God. Those drugs open a door in your life for demons to come in and set up strongholds and control you and tear your life

down. So the two things that are in the definition of pharmarkeia as used in Rev.18:23 speaking of the nations being deceived by your sorceries are in play with these kind of drugs. You have the drugs that altar the state of mind and you have idolatry, doing the drugs opens the door to demons and interaction with demons.

## **CLOSING**

Remember the sermons I did on smoking, drinking and drugs they go hand in hand with this sermon series. When someone does those things it is also pharmakeia, the use of drugs in idolatry. Each one of those things is a sin against God, each is a drug and each one of those things brings demonic strongholds directly into the person's life. That's major deception right there just like we read in Rev.18:23 – all nations being deceived by your sorceries. Think about how many people in this world are caught up in these type of addictions. I personally know family members that have been in these addictions and some still are.

Liquor and alcohol are called spirits for a reason.

This looks like the devil himself on fireball cinnamon whisky. The label is speaking loud and clear here. They really don't try to hide the truth. They dress it up and present it as cool. You drink this and demons will enter your life.

Look at this delivery truck for fireball whisky, right below the fire breathing demon it says “unleash the dragon.” Who is the dragon?

**Revelation 12:9** - And the great dragon was cast out, that old serpent, called the devil, and satan, which deceiveth the whole world: he was cast out into the earth, and his angels were cast out with him.

satan is the great dragon and he is deceiving this whole world through his agents who serve him willingly on this earth and through the fallen angels. He is marketing drugs on a major scale, alcohol, cigarettes, pot, cocaine, meth, hallucinogens, psychedelics etc. in an all out effort to pull as many people away from Jesus as he can. I saw on the news one morning where they were encouraging people who are stressed out or anxious to take mushrooms. They are presenting it as a casual thing, no big deal. But it is a big deal. The luciferian government is legalizing pot in more and more places now. They will keep breaking down laws that were good for us until this whole world is in a lawless state. **(Matt.24:12, 2 Thess.2:8)** People are turning to these things because they don't have Jesus in their life.

Many people, even in churches are caught up in these addictions and have demonic strongholds over their lives. They don't even realize it is a sin against God and that demons have set up camp in their lives. They are deceived and they claim to be part of the body of Christ.

I dare say all nations are certainly deceived through these drugs because even the church is in this sin and deceived about it. They think God is ok with their

addictions; they have convinced themselves He's fine with it because they have made God over in their own image. And they don't even think it is sin. So if you want to talk about pharmakeia being a great deception, I think more people are being deceived through smoking, drinking and drugs than those taking vaccines.

You cannot truly love and serve God sincerely and continue in these drugs. You are grieving the Holy Spirit if you have any of these addictions in your life. He will only bear with you so long before He leaves you because you have made it clear what you want, and it isn't God.

If smoking, drinking or doing drugs pertains to you, please go and listen to those sermons so you can get free from those things and have a close intimate walk with God.

Here is my personal opinion about the sorcery of mystery Babylon. I think it will be more in line with how satan works during the tribulation – with all power, signs and lying wonders. **(2 Thess.2:8-9)** He is going to do miraculous things and great displays of his power to draw the people away from believing in Jesus.
