**\*\*WARNING – MATURE CONTENT – NOT FOR YOUNG CHILDREN\*\***

Last week we began to look at the fertility worship side of freemasonry. We heard Fiona's testimony of a ritual where sacrifices were made to baal, lucifer and satan – all the same one. Let's look further at how fertility cults work, how they worship, what they believe.

## Rituals and Practices:

Animal sacrifices, and sometimes human sacrifices, were performed to appease fertility deities and ensure their favor. [🔗](#)

Symbolic Acts:

Rituals often included reenactments of sexual acts, either literally or symbolically, to promote fertility and renewal.

Festivals:

Many cultures had festivals dedicated to fertility, often involving celebrations of the harvest, new births, or the changing seasons.

### Sacred Prostitution:

Some interpretations suggest that temple prostitution, or sacred prostitution, was a form of fertility rite or divine marriage, where paid intercourse was performed in the context of religious worship.

### Ancient Canaan:

Worship of baal and asherah, with their union believed to produce fertility, led to ritualized sexual acts, sometimes interpreted as sacred prostitution.

First of all I want to emphasize that hi-level freemasons worship lucifer and lucifer requires human sacrifice as part of his worship, it is not optional. They downplayed it here saying sometimes there would be human sacrifice. When you listen to real testimonies of hi-level rituals you always hear of human sacrifice. We heard Fiona's testimony last week, John Todd shared the same thing of a ritual where a U.S. senator led the ritual and took the life of the person, Arizona Wilder shared the same things and on and on it goes. Along with the human sacrifices, they always do sexual acts, what they consider ritual sex or sacred sex because it too is part of their worship.

In many ancient cultures, fertility rites and rituals, sometimes involving sexual acts or symbolism, were performed to influence the gods and ensure the fertility of the land, people, and livestock. These practices, often rooted in "sympathetic magic," aimed to replicate the desired divine behavior to achieve desired outcomes. [🔗](#)

### Here's a deeper look at some examples:

#### Sympathetic Magic:

The belief that performing a specific act (like sexual union) would cause the gods to also engage in that behavior, thus ensuring good harvests, successful reproduction, or other desired outcomes. [🔗](#)

Mrs. Joy, a victim and survivor of luciferianism and MK Ultra was raped on an altar at a very young age by a satanic priest during a ritual. Fiona described the same thing last week in the ritual she attended when she was 15.

These luciferians who consist of hi-level freemasons are still practicing fertility worship and human sacrifice, the same things that went on in ancient Egypt and ancient Babylon, the mystery religions.

The freemason lodges show us who they worship plain and simple. These pillars are topped with osiris' head on top of the lotus plant which is associated with

osiris as a symbol of rebirth or rising from the dead. There is the sun flanked with cobras and outstretched wings all representing lucifer, the sun god.

Here's another Masonic lodge and to the right and left we see Egyptian goddess isis, and there are Osiris sphinx' here as well as the Masonic checkerboarding.

There is an altar to Osiris here with the sun symbol and outstretched wings and again the lotus plant in the middle. None of this is about Christ.

Another lodge with Osiris sphinx' and some false goddess hanging on the wall. When we realize the great showdown that happened in Egypt in Scripture and how satan has tried to set himself up as God on this Earth, then these things will become clearer to us. satan was worshipped in Egypt as a god and he is the one worshipped in Freemasonry and they have told us themselves in their writings and praises of him.

### **PHALLIC WORSHIP / FERTILITY WORSHIP**

I apologize ahead of time for the crudeness of the subject matter I am about to cover.

**Book of the Words**  
by Albert Pike

**This explains the elite's fixations for obelisks (which represent a phallus).**

phallic worship, all represented the human and not the animal organs. Diodorus Siculus informs us that the Goat being prone to sexual coition, that member of his body which was the instrument of generation was deemed worthy of adoration; and he adds, that not only the Egyptians, but many other peoples worshipped the sign of the masculine sex, and employed it as a sacred object in the ceremonies of the mysteries, because it is from it that the generation of animals proceeds.

Whatever this symbol was called, *Phallus, Priapus, Mutinus, Tetanus, Fascinum, Linga, &c.*, and how different soever the worship of it among different nations, the reasons for the worship always referred to the fecundating action of the Sun of the Spring, and of Light.

The Gnostics represented their Sun-God *Iao* in the same attitude, with the same attributes.

Among the monuments of Egypt, described by the Egyptian Commission, is seen an Osiris of gigantic stature, holding his Phallus with his right hand, the ejaculations from the member producing animals and men.

And in the mythologies of different nations, the impotence of the Sun, whereat all nature languishes, in the Autumn, was allegorized by fatal accidents happening to the organs of generation of the Sun-Gods.

The Gnostics represented their sun-god law in the same attitude, with the same attributes.

Among the monuments of Egypt, described by the Egyptian Commission, is seen an Osiris of gigantic stature, holding his phallus with his right hand, the ejaculations from the member producing animals and men.

And in the mythologies of different nations, the impotence of the sun, whereat all nature languishes in the autumn, was allegorized by fatal accidents happening to the organs of generation of the sun-gods.

This word fecundating he used means fertility or fertilization – with fertility cults, as freemasonry is, the worshipers are seeking to be made fertile themselves, their animals and their land by the gods and goddesses they worship and in freemasonry the main one is lucifer who is worshipped as a sun god and fertility god. When they talk about the sun making things fertile, it can help on the surface for vegetation to grow and thrive but it certainly does nothing to make mankind or animals fertile.

These next passages are about God.

**Job 9:7** - Which (Who) commandeth the sun, and it riseth not; and seaeth up the stars.

God controls the heavenly bodies, they do what He says.

**Joshua 10:12-14** - Then spake Joshua to the LORD in the day when the LORD delivered up the Amorites before the children of Israel, and he said in the sight of Israel, Sun, stand thou still upon Gibeon; and thou, Moon, in the valley of Ajalon. And the sun stood still, and the moon stayed, until the people had avenged themselves upon their enemies. *Is not this written in the book of Jasher?* So the sun stood still in the midst of heaven, and hasted not to go down about a whole day. And there was no day like that before it or after it, that the LORD hearkened unto the voice of a man: for the LORD fought for Israel.

Joshua needed more time to defeat the Amorites so he prayed for God to make the sun and the moon stand still and God answered his prayer. God holds all the power and He created the sun and moon and stars for our benefit, not for us to worship and look to as gods. **(Genesis 1:14-19)**

So in the occult they have sun gods and goddesses and moon gods and goddesses and star gods and goddesses. These are the fallen angels and the women they mated with. **(Genesis 6:4)** The ball of the sun is just a symbol for lucifer, the deity that is truly being worshipped. All through time luciferians / freemasons have worshipped lucifer as a fertility god, the one they equate granting them children and animals and crops, the one they believe is making them fertile and blessing

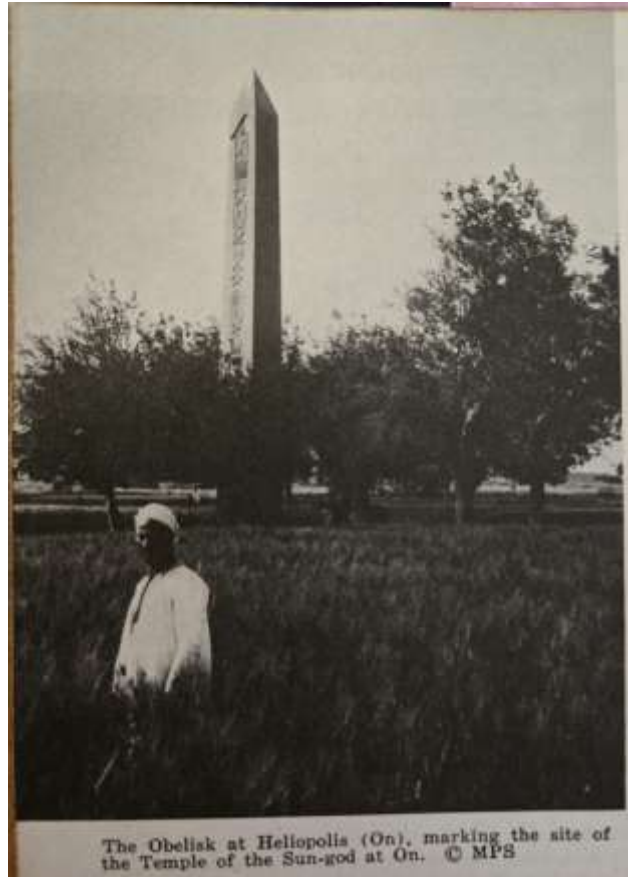

their lives. They are not looking to the God of the Bible for any of this but they have turned away from Him and are seeking lucifer, a created being to fulfill God's role in their lives.

Listen to what he said again: "Whatever this symbol was called, phallus, priapus, mutinus, tetanus, fascinum, lingua etc. and how different soever the worship of it among different nations, the reasons for the worship always referred to the fecundating (fertilizing) action of the sun of the spring, and of light." The obelisk was considered sacred, a sacred object, sacred pillar in pagan religions. He mentioned this huge image of Osiris holding his male anatomy and from it coming man and animals. What a perverse thing to say against The God we serve Who created all things through Christ. **(Col.1:16)**

A few weeks back we learned that when Osiris / baal was murdered and cut into pieces, Isis also called Asherah, Astarte and Easter – searched for the parts of his body. She found them all except for the male genitalia. She then made an image of his genitalia and consecrated it to be sacred in the ancient Egyptian mystery religion.

The images of the male genitalia that Isis / Asherah made are in the form of standing stone pillars as well as obelisks which we call in this country, monuments. These images have been worshipped in these cults ever since. Freemasonry is no exception, at the high levels they participate in the same things that went on in ancient times.

The obelisk at Heliopolis (On), marking the site of the temple of the sun-god at On. The city of On was the city of the sun god and of course osiris' temple was there.

**ON** (ōn, Heb. 'ōn). 1. A Delta city of Egypt, called by the Greeks Heliopolis (City of the Sun) and so rendered in the Septuagint (Gen. 41:45,50; 46:20). In Ezekiel 30:17 the name has been changed to "Aven" by misvocalization. "Aven" means "idolatry." It is called Bethshemesh in Jeremiah 43:13, a word of similar import. On is an Egyptian word signifying "light" or "sun," so the Greek and Hebrew names are fair translations. "Cleopatra's Needle" of Thames Embankment fame was originally one of the obelisks before the temple of the Sun at On, erected by Thothmes II (1503-1449 B.C.). On was founded at a very early date and was an important city long before the unification of Egypt. Herodotus' description of Egypt in his Second Book gives On (or Heliopolis) great attention. It was a nodal point of communication and a terminus of numerous caravan routes. In consequence it was the major center of commerce in northern Egypt. The priest of On, whose daughter Asenath became Joseph's wife, was thus a person of considerable importance. The worship of the Sun-god which was centered there had peculiar features which suggest Syrian influence. Ra was identified with Baal by Semites, and with Apollo by the Greeks. There must therefore have been a cosmopolitan element in the temple cult to match the atmosphere of a center of international trade. It is perhaps significant that On is named as the place of sojourn of the Holy Family after the flight into Egypt. Strabo the geographer describes the site

Beth means house so beth shemesh means house of the sun. Our Bibles also use of the word “aven” which means idolatry, reminds me of Las Vegas being dubbed “sin city.” I am hoping to open your eyes to see that all of this is in our Bibles and we need to understand it better.

God pronounced judgement against the city of On in Scripture. **(Ezekiel 30:17 and Jeremiah 43:12-13)**

Yes, in ancient Egyptian religion, the deity "On" is indeed a form or epithet of Osiris, the god of the underworld, fertility, and the afterlife.

Here's a more detailed explanation:

**Osiris: A Central Figure:**

Osiris was a highly revered god in ancient Egyptian mythology, associated with a wide range of concepts, including death, resurrection, the afterlife, and fertility.

**"On" as an Epithet:**

The name "On" (or "Un") is a form of Osiris, specifically referring to his role as the "one who appears" or "the manifest one".

Now we see this city is in our Bibles and it is a direct link to osiris of the Freemasons. Who is lucifer also called baal in our Bibles.

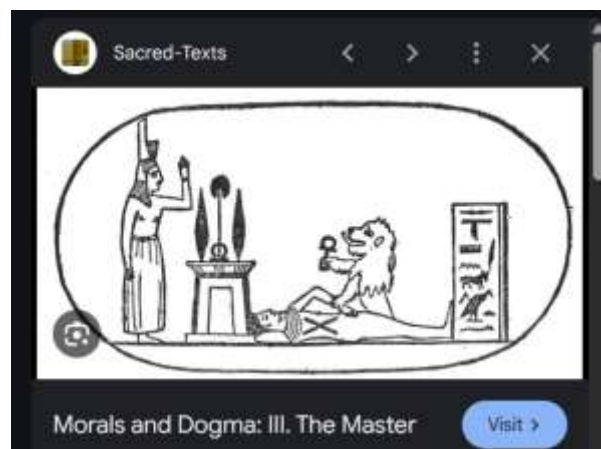

## Osiris

God of the afterlife in Egyptian mythology

Osiris was the god of fertility, agriculture, the afterlife, the dead, resurrection, life, and vegetation in ancient Egyptian religion. He was classically depicted as a green-skinned deity with a pharaoh's beard, partially mummy-wrapped at the legs, wearing a distinctive atef crown, and holding a symbolic crook and flail. Osiris – god of the afterlife in Egyptian mythology. Osiris was the god of fertility, agriculture, the afterlife, the dead, resurrection, life, and vegetation in ancient Egyptian religion. He was classically depicted as a green-skinned deity with a pharaoh's beard, partially mummy-wrapped at the legs, wearing a distinctive atef crown, and holding a symbolic crook and flail. He is green to represent spring and new life coming forth like in vegetation. The obelisks represent his missing male anatomy which then became sacred and was an object of worship in fertility cults. Let's take a look at a few images to remind of us of how deeply rooted osiris is in freemasonry.

Albert Pike wrote about the lion's paw or lion's grip when he extended it to osiris to help raise him from the dead in his book *Morals and Dogma*. Notice the X on osiris, the X symbolizes worship of lucifer among hi-level luciferians.

L: Hi-level occultist, freemason and luciferian Aleister Crowley – notice he is dressed in Egyptian garb and he is making an X with his arms. M: Top L: – First sign in the super-excellent master mason degree (Richardson's Monitor of Freemasonry p. 91) This looks like what Crowley is doing. M top R: not sure what pharaoh this is but he is making the X with the crook and the flail. Under the pharaoh this woman is making letters and the last one she has crossed her arms and it is considered an X just like what they all are doing here. R: An image of osiris and he is holding the crook and flail with his arms in the shape of an X. The X is tied to osiris who is also lucifer and so it is a powerful symbol of his. It means nothing to us as Christians because we are not in satan's system of worship. But we need to recognize what it symbolizes in this world which belongs to satan.

Another image of osiris – Travis Simpkins – “Freemasonry of the ancient Egyptians” by Manly P Hall.

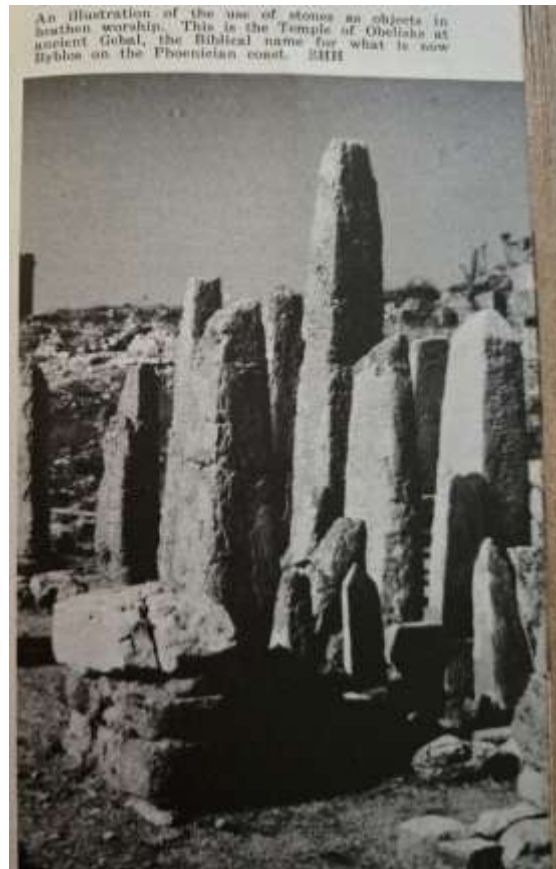

Let's not forget Plate II which shows osiris sitting on the square on the right.

Worship of osiris who is baal who is satan who is lucifer figures prominently into freemasonry and is the root of it all.

Remember they say that on this physical plane the sun is the representation of lucifer. The obelisks represent osiris' male anatomy, other names for osiris are baal, satan and lucifer. So let's look at obelisks all around this world that have been set up on purpose in honor of lucifer. They are used in fertility worship and rituals and in worship of him in general.

An illustration of the use of stones as objects in heathen worship. This is the Temple of Obelisks at ancient Gebal, the Biblical name for what is now Byblos on the Phoenician coast. This started thousands of years ago. Is that city Byblos or Bible-os? hmmm

Here are examples of modern obelisks or male genitalia because that is what it represents. It represents osiris, amen – lucifer and it represents fertility worship. L-R: Obelisk In Stockholm, The Wellington Monument, The Brothers Brogile

Obelisk is in Russia, The Stone of the Empress in Finland, The Washington Monument, The High Point Monument in New Jersey and last is The Obelisk of Buenos Aires.

There is a powerful freemasonic / luciferic network ruling this world. It consists of our world leaders and the hidden hand behind them that we mostly never see. They decide where these monuments are placed to be used as portals, gateways to draw satanic power into this realm. These things represent ruling spirits over an area – it speaks spiritually as to what god is being served. They are symbols of the god they serve and they use them in their witchcraft. These are statements in the spirit realm for the god and spirit over these nations and places. It speaks to who those in power serve. It all stands in rebellion against God.

Luxor Temple in Alexandria Egypt – Obelisk of Osiris. satan is the god of this world and his symbolism is all over this world. This ancient obelisk is a stone phallus. Our Bibles call them sacred stones or sacred pillars. This is a symbol of the sun god baal, amen, osiris, lucifer. It was revered in fertility worship. satan and the fallen angels were worshipped as fertility deities. This represents the male genitalia.

Everywhere you see these obelisks, all over our world, the meaning is the same. Albert Pike did not mix his words when he said that from osiris' male organ sprang

man and animals. We know Jesus created all things but freemasons attribute that to osiris.

## CLOSING

These false gods are in our Bibles but exactly what went on with them is not made so plain and clear in our Bibles. However, their worship and sacrifices are dealt with in our Bibles.

**1 Kings 18:19** – Now therefore send, *and* gather to me all Israel unto mount Carmel, and the prophets of baal four hundred and fifty, and the prophets of the groves four hundred, which eat at Jezebel's table.

baal and his prophets - is satan also known as osiris. The KJV makes it hard to see that asherah is mentioned here because it only mentions “prophets of the groves.” A straight read through makes you think there were prophets in a grove of trees or something like that. The correct translation is the 400 prophets of asherah, who eat at Jezebel’s table or that is, that are supported by Jezebel.

If you read the story you know that baal did not respond to his prophets and God sent down fire from heaven and devoured the water, the wood the sacrifice and everything so that the whole nation of Israel knew who the true God was and they returned to Him. Then Elijah killed all the prophets of baal / he killed all the prophets of satan.

Asherah and isis seem to be the same one, so Jezebel had 400 prophets of asherah that she took care of. Baal and osiris are connected and with this one showdown in Scripture we can see the gods of Egypt being worshipped by the Israelites, God’s initial chosen people. Of course they worshipped the gods of Egypt, as soon as they were delivered from Egypt they started bowing down to the gods of Egypt. When Moses went up on the mountain to talk with God they made a golden calf and bowed down to it. **(Exodus 32)** These are the same gods the freemasons worship.
